PART III

STATEMENT OF OBJECTIONS AND/OR REJECTIONS

A. Objection to the drawings:

- 1. The drawings are objected to under 37 C.F.R. § 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, due to the importance of the diamagnets to the invention, each claimed arrangement of the diamagnets, including clear differentiation between the diamagnet and the other magnet means (ie. through different cross hatching), needs to be shown or the features cancelled from the claim. No new matter should be entered.
- 2. Upon submitting such corrected and additional figures the examiner requests that a brief statement corresponding each claim to its appropriate figure also be submitted.

B. Objection Under 35 U.S.C. § 112:

- 1. Claims 4, 6, 7, 25, 27-29 and 40-78 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following is a list of deficiencies that make the specified claims vague or unclear:
 - a. Claims 6, 7, and 27-29 are unclear due to their dependency on a canceled claim.
 - b. In claim 25, lines 13 and 14, the references to "radially" and "axially" are unclear

without a properly stated reference axis. This deficiency is also evident in claims 27, 52, 54, 55, 57, 58, 60, 61, 63, 66, 67, 69, 70, 72, 73, 75 and 76.

c. In claim 27, lines 3 and 4, it is unclear how something already claimed as radially stabilized (claim 25) is again radially stabilized.

d. In claim 40, lines 8-11, it is unclear how the apparatus would operate under the claimed possibility that the diamagnets and permanent magnets are fixed to the same element (housing or impeller). It is noted that the functional limitations of lines 11-16 cannot be referenced as excluding such a structural possibility. This deficiency is also evident in claims 52 and 64.

e. In claim 41, lines 1 and 2, as rejected in the first office action, the use of the phrase "substantially similar" is vague and indefinite. This deficiency is also evident in claims 44, 47, 50, 53, 56, 59, 62, 65, 68, 71, 74 and 77.

f. In claim 42, lines 5 and 6, <u>as written</u>, it is unclear whether it is the magnetic forces (claim 40) or the fluid forces (or both) that levitate the impeller. This deficiency is also evident in claims 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75 and 78.

- g. In claim 43, lines 10-14, the redundancy of "each said permanent magnet...are oriented one of generally axially and radially" and "the plurality of permanent magnets are oriented generally axially and radially" makes the claim unclear. This deficiency is also evident in claims 46, 49, 52, 55, 61, 64, 67, 70, 73 and 76.
- 2. Claims 64-66 are rejected under 35 U.S.C. § 112, fourth paragraph, as being of

improper dependent form for failing to further limit the subject matter of a previous claim.

As understood, all of the valid permutations of this embodiment have already been claimed.

C. Allowable Subject Matter:

- 1. Claim 4 is allowable over the prior art of record.
- 2. Claims 25, 40, 43, 46, 49, 52, 55, 58, 61, 64, 67, 70, 73 and 76 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. § 112.
- 3. Claims 6, 7, 27, 28, 29, 41, 42, 44, 45, 47, 48, 50, 51, 53, 54, 56, 57, 59, 60, 62, 63, 65, 66, 68, 69, 71, 72, 74, 75, 77 and 78 would be allowable if rewritten to overcome the rejection under 35 U.S.C. § 112 and to include all of the limitations of the base claim and any intervening claims.

D. Remarks:

- 1. Applicant's amendment necessitated the new grounds of rejection. Accordingly, **THIS**ACTION IS MADE FINAL. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).
- 2. A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL

Art Unit 3403

EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
